REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior does not teach all of the limitations of the claimed invention including:

- bonding a top surface of a first substrate to a bottom surface of a second substrate, wherein a patterned etch mask layer is formed on at least one of the top surface of the first substrate and the bottom surface of the second substrate prior to bonding; and
- etching a fluid channel in the first and second substrates extending through an opening in the patterned etch mask layer.

The closest prior art to the above features is directed to Hawkins et al (US 4,822,755).

Hawkins et al teaches providing a first substrate 14, second substrate 30 and etch mask layer 30. However, nowhere does Hawkins et al teach defining bonding a top surface of a first substrate to a bottom surface of a second substrate prior to bonding.

Accordingly, claims 10-26 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tai Van Nguyen whose telephone number is 571-272-4567. The examiner can normally be reached on M-F (7:30 A.M - 4:30 P.M).
